## Decision of the Independent Liquor & Gaming Authority

### Application for a new packaged liquor licence – Harry's Liquor

We first considered this application at the meeting of 16 June 2025 and, following consideration of further information, decided on 20 August 2025 to **approve** this application under section 45 of the *Liquor Act 2007* (the Act) — with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

#### Approved manager or individual licensee

The licence cannot be exercised until the Authority or Liquor & Gaming NSW is notified that:

- the licence is transferred to an individual licensee, or an approved manager is appointed; and
- the licensee or approved manager is a suitable and qualified person.

## Statement of reasons

We are satisfied that the overall impact of approving the application will be consistent with the objects of the Act and will contribute to, not detract from, the amenity of community life.

### Our main findings

The local community for the purposes of this decision is the suburb of Neutral Bay. The broader community is the Local Government Area (LGA) of North Sydney.

The applicant seeks to operate a new packaged liquor licence under the 'Harry's Liquor' banner in North Sydney. The proposed premises will replace a previous licence that operated at the site since 1959 which was removed to another site in February 2025.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

### *Social impacts*

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- crime hotspots – the proposed premises is located in crime hotspots for incidents of domestic assault and malicious damage to property, however it is not located in crime hotspots for incidents of non-domestic assault or alcohol-related assault
- crime rates – incident rates for the following categories when compared to NSW rates:
  - alcohol-related non-domestic assault and alcohol-related disorderly conduct are higher in the suburb, although lower in the LGA
  - alcohol-related domestic assault and malicious damage to property are lower in the suburb and in the LGA
- licence saturation – the rate of packaged liquor licences is higher in the suburb and LGA than in NSW
- health statistics – the rate of alcohol-attributed hospitalisations in the LGA is higher than in NSW, while the rate of alcohol-attributed deaths in the LGA is lower than in NSW.

However, we note that the below factors weighed in favour of approval of the application, and may also partially or fully mitigate some of the risks identified above:

- there were no objections from any government agencies or the community
- Socio-Economic Index for Areas (SEIFA) data indicates an above average level of socio-economic advantage and disadvantage in the suburb and LGA compared to other communities in NSW<sup>1</sup>
- the operator of the proposed premises is experienced
- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

---

<sup>1</sup> Research shows that the association between liquor outlet density and assaults is stronger in areas with higher percentages of ATSI and in areas with lower socio-economic status (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2024))

We also considered [Guideline 6](#) to assess the likely overall impact to the local and broader community.
