Decision of the Independent Liquor & Gaming Authority

Application for a new packaged liquor licence – Temora Cellars

We **approve** the application above under section 45 and 72I of the *Liquor Act 2007* (**the Act**) — with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

Approved manager or individual licensee

The licence cannot be exercised until the Authority or Liquor & Gaming NSW is notified that:

- the licence is transferred to an individual licensee, or an approved manager is appointed; and
- the licensee or approved manager is a suitable and qualified person.

Statement of reasons

We are satisfied that the overall impact of approving the application will be consistent with the objects of the Act and will not be detrimental to the wellbeing of the local or broader community.

Our main findings

The local community for the purposes of this decision is the suburb of Temora. The broader community is the Local Government Area (**LGA**) of Temora.

The applicant sought a licence to operate an independent packaged liquor licence with delivery service in Temora. The town serves as the service centre for the surrounding agricultural properties in the region. The town is also a popular tourist destination and home to the nationally significant Temora Aviation Museum.

We note the lack of information on the identity of the directors of the proposed corporate licensee.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

Social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- medium-density crime hotspot for domestic assault and a low-density crime hotspot for malicious damage to property within the suburb
- incident rates for malicious damage to property and alcohol-related disorderly conduct being higher in the suburb than in NSW and the incident rate for alcohol-related disorderly conduct being higher in the LGA than in NSW¹
- saturation rate of packaged liquor licences being higher in the suburb and LGA than in NSW¹
- Socio-Economic Index for Areas (SEIFA) data indicating a below average level of socio-economic advantage and disadvantage in the suburb compared to other communities in NSW²
- percentage of Aboriginal and/or Torres Strait Islanders (ATSI) population in the suburb and LGA being higher than in NSW³
- rate of alcohol-attributed deaths and hospitalisations in the LGA being higher than in NSW.

However, we note that the below factors weighed in favour of approval of the application, and may also partially or fully mitigate some of the risks identified above:

- there were no objections from government agencies or the community
- the incident rate for alcohol-related domestic assault and alcohol-related non-domestic assault in the suburb are aligned to NSW and the incident rate for alcohol-related

¹ Temora functions as a rural service centre for properties within the north-eastern part of the Riverina region and is also a notable tourist destination. This results in seasonally high levels of visitation from agricultural workers and other visitors increasing the population of the suburb compared to the local population. This may skew both crime and licence density statistics which are calculated using residential population figures alone.

² Research shows that the association between liquor outlet density and assaults is stronger in areas with lower socio-economic status (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2024)).

³ Research shows that the association between liquor outlet density and assaults is stronger in areas with higher percentages of ATSI (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2024)).

domestic assault, alcohol-related non-domestic assault and malicious damage to property in the LGA are either aligned or lower than NSW¹

- Temora is experiencing significant development and population growth
- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.
